

Breaking The Barriers Employment Service

What do we do?

We improve the possibilities for disabled people and their carers who would like to: -

- ◆ Move closer to employment
- ◆ Enter employment for the first time
- ◆ Re-enter employment
- ◆ Remain in employment

Who the Service is for

We provide support to people of working age who have a learning disability, physical disability, sensory disability, may have difficulties with their mental health, or who get disability benefits.

How we work with people?

An Employment Development Officer will do an occupational assessment and give advice and support in looking for work. This includes support to prepare CV's, applications and interview training.

Work of the Job Coach

Job Coaches will work with people to achieve work tasks and help with socialising where this is needed. The Job Coach can also provide some travel training to help an individual to learn the route to and from the workplace.

(After an agreed period of time the Job Coach would withdraw their support once a person is established within the workplace.)

How to contact us

You should be ready and capable of work. You can self-refer or have someone complete our form with you. Please make sure you complete all of the form. All completed forms need to be sent to the Team Manager at the address below.
